1. Please describe the general damage to your community as a result of the disaster. Please describe the damages to the Infrastructure of your municipality.

2. What do you believe will be the impact on your major revenue sources? Can the impact on property taxes (if applicable) be determined by an independent source, such as the County Assessor?

3. How long do you expect it will take to rebuild in your community?
4. Have any of your residents/businesses/students relocated to another community as a result of the disaster? How many do you expect to return? How long do you expect it will take to recover from this disaster?

5. For future revenue projections, did you plan any rate increases/decreases in user fees, sales tax, income tax, or property tax? As a result of the disaster, do you plan any changes? For example, building permit fee waiver.

6. Other questions?
